

## Log Cabin Supply List

### Required:

Sewing Machine, thread

Rotary cutter and mat

Basic sewing supplies: seam ripper, scissors, pins

6" x 24" Rectangular Ruler

### OPTIONAL:

I will be demonstrating using the Marti Michell Log Cabin Rulers. They come in two sizes. The #8037 makes  $\frac{3}{4}$ " and 1.5" finished width logs. The #8038 makes 1" and 2" finished width logs. If you own either bring it. If you wish to buy one, consider the width of the logs you want to use in your quilt.

Fabrics: At least 8 dark fabrics AND 8 light fabrics (at least fat quarters) but more fabrics make for more fun. Take a look at antique log cabin quilts in books and on the web for inspiration. Some bed-sized antique quilts have over 100 different fabrics. Log cabin quilts provide an opportunity to use long narrow scraps from your fabric archive.

We will talk about the construction, history and infinite variety of log cabin quilts. It's a classic!

If you have any questions, please email me.
